

Substitution of NMP (N-Methyl-2-pyrrolidon)

- /// Application for lift-off processes and paint removal.
- /// NMP is harmonized classified as toxic for reproduction.
- /// NMP was included in REACH Annex XVII in 2018. Since May 2020, consumer products containing $\geq 0.3\%$ NMP have been banned in the EU.
- /// Development of processes with harmless products to replace NMP.
